

Dear Friends, Guests and Members,

As all of you are aware, the CoVid-19 epidemic has created much uncertainty in our community and we would like to take this opportunity to let you know that the Giovanni Caboto Club is taking steps to help keep you safe. The health and safety of our Staff, our Guests and our Members are extremely important to us and we want to ensure that your experience at the Caboto Club is positive even in light of the current events. In order to do our part we have instituted the following protocols

- We have increased the cleaning frequency of high traffic areas.
- We have reinforced guidelines to reduce risk of, exposure to, and transmission of a range of illnesses including coronaviruses.
- We have increased not only cleaning supplies, but stock for our waterless hand washing stations in the hallways
- Our Management is monitoring, reviewing and implementing recommendations established by Government organizations such as W.H.O., Public Health Ontario and Public Health Agency of Canada.
- Absenteeism tracking

What can you do to help? First and foremost, don't panic. More importantly, be mindful of and practice good hygiene habits – frequently wash your hands with soap and water, avoid touching your mouth and eyes with your hands, eat healthy and get enough sleep. If you feel sick, stay home or work from home and contact your medical professional. Our Guests are important to us and your wellbeing equally so. If you have any questions about any events at the Caboto Club, do not hesitate to call the office at (519) 252-8383.

For 95 years, the Caboto Club has been a fixture in Windsor and this is not the first crisis we have encountered. Together we will get through this latest one.

Gino Piazza
President, Giovanni Caboto Club
