

March 17, 2020

Dear Friends, Guests and Members,

As the CoVid-19 epidemic evolves, so does our response to it. Based on the mandates from Health Canada, the Chief Medical Officer of Health for Ontario and the Windsor-Essex County Health Unit, the Giovanni Caboto Club has immediately ceased operations until March 31, 2020. This includes all functions, the Main Bar and the Pizzeria.

Why take this step?

First and foremost, the health and safety of our Guests, Members and Staff are of the utmost priority to us.

Equally important to myself and the Board of Directors is the safety of the entire community. We have all been asked to take significantly enhanced measures to help contain the spread of the CoVid-19 virus and this is just the latest step the Caboto Club is taking.

As we receive additional guidance from the various levels of Government, we will continue to update you on our protective protocols and remember that you also have a part to play in this. Practice social distancing, wash your hands frequently with soap and water and if you feel sick, stay home and contact your medical professional.

We will keep you informed of any changes at the Caboto Club and we can still be reached at (519) 252-8383 if you have any specific questions.

Gino Piazza
President, Giovanni Caboto Club
